### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with W. John Keyes on 8/10/06.

2. The application has been amended as follows:

#### **In the Specification:**

3. On page 1, under "RELATED APPLICATION DATA" line 3 after "filed January 23, 2001" insert - - now U.S. Patent 6,755,873 - -.

#### **In the Claims:**

4. In claim 13, line 10 after "said battery device" insert - - sealed in said laminated film - -.
5. In claim 13, line 17 delete "(d)" and insert therein - - (e) - -.

### REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest sealing a battery device within a laminated film by heat fusion comprising preparing a battery device, accommodating the battery device within the laminated film, sealing the laminated film, a first heating step of heating the battery device sealed in the laminated film under a pressure, a charging step of charging the battery

Art Unit: 1733

device after the first heating step, a discharging step of discharging the charged battery device, and a second heating step of heating the battery device under a pressure after the discharging step.

JP 01320769 discloses sealing a battery device within a can by crimping comprising preparing a battery device, accommodating the battery device within the can, sealing the can, charging the battery, discharging the battery, and recrimping the can. However, JP 01320769 by itself or combined with the prior art of record does not teach the sequential steps of sealing the laminated film, a first heating step of heating the battery device sealed in the laminated film under a pressure, a charging step of charging the battery device after the first heating step, a discharging step of discharging the charged battery device, and a second heating step of heating the battery device under a pressure after the discharging step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John L. Goff** whose telephone number is (571) 272-1216. The examiner can normally be reached on M-F (7:15 AM - 3:45 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
